John went over and above what was expected of him. Nothing was too much trouble for him or his team. John knew what we wanted better than we did. The finished result of our bathroom is perfect.

My mum was quite nervous about having a workman in her house being elderly and a widow although she desperately wanted a new bathroom. I knew John worked locally and made an appointment for him to visit my mum he introduced himself to her and explained and discussed with her in detail the design for her new bathroom. He then went on to explain all of the steps of the job and how long it would take to complete. He completely put her mind at rest about any fears or doubts she had. He carried out the job so professionally and to such a high standard. She is so thrilled with her new bathroom and shows it off to everyone and has recommended him to several of her friends. She always says to me if John is working in the area he would be more than welcome to pop in for a coffee anytime and I would have no hesitation in recommending him either.

Very customer focused - from design ideas right through to tidying up at the end of each day. No question or detail was too much trouble. I wouldn't hesitate to recommend John.

Very professional but friendly, making me feel at ease. John has also completed a bathroom and downstairs toilet for me. He will also be carrying out work in an extension due to be completed this year.

Excellent service from when John first visited to provide his estimate. Really pleased with our new bathroom.
