Comments: R. M .Smith Fencing Ltd was established in 1963 by Rod Smith and his wife Janet. Through hard work and a real dedication Rod made the company a success. During the early eighties Rod's sons Lyndon and Ryan and his son-in-law Neil joined the company and with the same hard work and dedication they became quality erectors that helped continue the company's success. In the mid nineties Rod's daughter Janine joined the company and quickly became an inherent part of the team. During the early part of 1999, satisfied that the company was in safe hands, Rod took his retirement. Sadly in 2000 Rod passed away.

Since the next generation have been in the 'hot' seat, things have moved steadily forwards. The team now stands at fifteen and all are safety trained to keep abreast of current Health and Safety requirements. Some erectors now hold NVQs in Fence Erection - a requirement to comply with British Standards.

Our list of clients in not only long and varied but also quite impressive, with a huge percentage of our client base being returning customers. We are constantly trying to improve the service we offer and to find new and better solutions for all fencing requirements.

Over more than fifty years of business we have seen and erected a huge range of fence styles. It is this experience and expertise that makes R. M. Smith Fencing Ltd a wise choice for any fencing requirements. We have not only dealt with a large number of fencing manufacturers and suppliers, and are therefore familiar with a vast majority of the fencing products available, but we have dealt with a huge range of clients with a real variety of specifications. Hence, we are able to offer not only a competitive and professional service, but we can be of real help when you or your client are considering fencing specifications.
