I was impressed with the diligence, professionalism, and politeness of Vickery Water Softeners. My water softener installation was slightly complicated by the location of the mains stopcock and the layout of water pipes. Matt Vickery assessed the situation, discussed options with me, and then completed the agreed work to a high standard. I now have soft water throughout my home and, given my experience, have no hesitation in recommending Vickery Water Softeners.

18-Jun-2020	Amazing! Mr Vickery arrived punctually to install a replacement water softener system and proceeded to clean and sanitise the working area . He was very efficient and had the job finished in a couple of hours and then sanitised the area again. He went to great lengths to ensure that we understood the workings of the system and that we were happy with the installation. He is extremely knowledgable about all matters to do with his trade and was quite prepared to spend the time to make sure we knew everything we needed to know (plus quite a lot more besides!). We would recommend him to anyone who wanted an excellent job done at a fair price and will continue to use his company for future supplies of salt for the softener. Extremely satisfied customer!
