Responded promptly to my emergency call & fixed plumbing problem immediately. Also advised on electric shower leak and replaced that by next day. Very efficient and reliable.

Divine Water carried out the replacement of my old gas boiler with efficiency and professionalism. Subsequent issues with the existing pipework highlighted by the new boiler were dealt with speedily and proficiently.

The plumbers arrived on time and began work immediately. Did everything that was discussed and more where necessary e.g. replacing leaky radiator valve. Work completed in two days instead of the original three and to a very high standard. Any issues with installation were discussed and resolved. Would certainly recommend Divine Water Plumbing and Heating to family and friends.

Excellent service from first contact through to completion of work, arrived on time, diagnosed a difficult fault on my boiler, fitted manufacturer parts, left the area clean & tidy & charged a reasonable rate. It's a relief to find a trader I can trust, didn't even try to suggest unnecessary work (past experiences of other heating engineers). Will definitely be using again.
