have used Diamond Gas for a few years now to look after the heating etc. in my handicapped son's house. They've always been very responsive when we've had problems, usually turning up the next day.

Chris the engineer very polite and got straight on with sorting the problem, shows and explains what he has found and fixes it. The problem on this occasion was down to the age of the boiler. I am always left feeling happy and confident that the work has been completed to the highest standard knowing my boiler is safe and working well. I have used this Diamond Gas for many years for servicing and would be very happy to recommend their service, quick response and excellent rates for work done. They can be paid online which adds to the convenience.

Chris and Paul are both pleasant people, they got on with the job of installing my new boiler, answering my questions no matter how simple. They left things tidy and took away all the rubbish. Chris came back a week or so later to make sure I was happy with the heating and make an adjustments were necessary.
