Two single garage doors removed and brick pillar. Electric double garage door fitted. Excellent job done. Good builder and two good garage door fitters. Swept the garage when they finished and the drive. Removed all the rubbish. Gave us full instructions on how to operate the new door. Said if we experienced any problems ring them straightaway. An excellent Company.

John Briar's were excellent from start to finish. Their fitters did a very neat job and took care in our garage. They also took all necessary precautions due to the pandemic, wearing face masks and maintaining the two metre distance. The door is beautiful quality and we are extremely pleased with the result.

It's not often I feel the need to give a small business a shout out but on this occasion, I simply couldn't wait to share a review. Huge thanks to all the staff at John Briars Garage Doors, exceptional service was provided from our initial enquiry and request for help, until the completion of the work by their skilled friendly fitters. Even in these difficult COVID times, the guys attending were professional and respectful of distancing. All work completed successfully and over-achieved on our expectations. I would highly recommend this company and would definitely engage their services again. Many thanks

29-Jun-2017	A no nonsense, hassle free purchase from beginning to end. No high pressure selling, great advice from Dave and attention to detail was second to none. The installers were polite, worked in a methodical manner and very clean, leaving the garage just as tidy as it was when they arrived, taking with them all scrap material and rubbish. They worked non-stop and the doors look fantastic, all internal work is extremely neat and coming from me that's a complement indeed. I would highly recommend this company to anyone that's looking for a quality product (doors & installation) at a justifiably reasonable price.
