Danny and Jordan took a half finished bathroom (we were let down by another installer who went out of business during the job) and carefully completed it, putting things right and making improvements as they went. The job also required an electrician and plasterer, and Danny got all of the work planned and completed on time. Everything works well, and the room was left clean and ready to use. After being so badly let down by another installer, we were delighted to have the bathroom completed so well.

As was the case when Danny last completed a task for us, he once again worked to a very high

	<p>standard,transforming the conservatory with his expert tiling. He was cheerful and courteous throughout the 5 day duration of the project and volunteered to complete the work on the Saturday morning ,in order that we could refurbish the area over the week-end. He is a pleasure to have around the house and we now view him more as a friend and not merely just another tradesman.</p>
