Simon and team converted our garage into an useable room which is now utilised as a home gym. The service we received was excellent from the start when he came out to quote which was very reasonable for the quality of work received. Really high quality work and good level of communication received throughout and worked around our schedule which was really helpful. Really pleased with end result and whilst this was clearly a smaller project for them would not hesitate to recommend them or use again in the future for any range of building work. Really trustworthy and skilled craftsman.

Simon and the team at Simat were very reliable and did an excellent job. But more than that, they cleared up thoroughly every evening when they finished. Lovely bunch. Couldn't have asked for better, and the work was finished to a very high standard.

Simon Hemmings and his team completed a total refurbishment of the main room of a Grade II listed Old School, used as a village hall. He has a natural sympathy with historic buildings and working with him was a pleasure as we refined ideas together throughout the build. His professionalism and attention to detail were excellent, the budget respected, the site kept tidy, and the subcontractors he used complemented his skills. He will give honest advice and I have no hesitation in recommending Simat. Both he and I were delighted with the result which was above expectations.

01-Feb-2019	Simon and his team provided a 110% level of service. Their knowledge and commitment to our project was fantastic. Our building is very old, Simon and his team respected this and ensured we knew of anything we needed to be concerned with. The finished room is simply wonderful, it has surpassed our expectations and this was achieved with the help of Simon and his team. I would not hesitate to recommend them to anyone.
22-Aug-2018	Great workmanship by two wonderful knowledgeable builders
10-Apr-2018	Very happy with work carried out, have already recommended Simon to my daughter.
07-Mar-2018	Job thoroughly and carefully executed. Simon added to its success with good advice and suggestions. Both Simon and Ben were a pleasure to have in my home. Delighted with the results.
24-Aug-2017	Everything about the work to be carried out was explained to us at the outset and frequently during the course of the job. The estimate was very detailed and the staged payments were only requested as each stage of work was completed to our satisfaction. All the tradesmen we met were of the same high standard and a pleasure to have on our site. Simon and his team arrived around 8am every day and left about 5pm so a very full day's work. They also worked every day during the contract. We cannot fault any aspect of the work or the overall service we received.
27-Jun-2017	Stone out buildings demolished. 2 concrete shed bases laid, new patio constructed. Very professionally done.
15-May-2017	Service was excellent from the first time we met until completion of the work. Simon kept us informed at all stages with information we needed to know. He recommended alternative patio slabs to those we originally were contemplating, which were excellent and saved us money. When an unexpected problem arose with existing drainage pipes (nothing to do with Simon) he suggested and quickly implemented a good solution with the minimum of fuss and cost. He made good suggestions throughout the job. Simon and his brother turned up on time each day. They even worked when they should have been on holiday! The job was completed to schedule. They were professional and courteous at all times, but happy to talk things through with me when I wanted. They did their best to keep the surroundings tidy, and cleared up at the end of each day, so the disruption was kept to a minimum. I will always use Simon and Ben from now on, and have no hesitation in recommending them.

13-Sep-2016	From quote to finish, Simon was helpful, considerate and imparted good advice, that made the finished

	extension better than we had hoped. Always considerate in how the site was left, even overnight, so that the impact on our lives was minimised. Thanks you.
