Intex provided a fantastic level of service. They were extremely knowledgeable, polite, tidy and really went above and beyond. They bricked up a patio door to become a window, and extended another window and fitted a new lintel. They did a great brick match and also completed other jobs that came up with ease. They completed the work very quickly and it was a pleasure to work with them from start to finish.

Duane came within a couple of days of first contact. He examined and explained the problems including the possibility that the main part might no longer be available and then gave me an estimated cost which I accepted. A few days later I was advised that the part was not available and the consequences. He came on a Saturday morning about a week later and completed the job. At the end of the month, the invoice came and was less than the estimate; I presume because the unavailable part would have been more expensive. I have no complaints about Duane and would recommend him to anyone.

Duane was professional and helpful from the moment he took my call. He came to assess the plumbing problem within 48 hours (as promised) and carried out the work a few days later. (As it was a small job he explained that he would fit it in around existing work). He was as good as his word. There was no fuss, no mess. The work was done efficiently and at a

reasonable cost. I am very happy with the service provided by this company and would recommend them. I've already asked if Duane will quote me for a new bathroom next year.

They arrived at the agreed time, after inspection advised the job would take a couple of hours, the rate per hour and as it was a small job that they could do it now. We were pleased and they completed the jobs to our complete satisfaction the same morning. I am happy to recommend this business and will use them again should the need arise.
