Andy and the mini build team are outstanding. This was our first project (a conversion of an integrated garage into separate utility and office) and we could not have been happier with the result. Andy's communication is fantastic, always available and happy to answer any query you have. The team he uses for electrics / plumbing etc are all brilliant and highly skilled. We are so happy with the work, Andy is a complete perfectionist. He was a pleasure to have in the house and he works hard to make the process go with as little disruption as possible. Very reasonable quote brought in exactly on target. We will definitely use Minibuild again!

Andy provided an exceptional service; his work was of a very high standard and he was friendly, honest and professional at all times. He gave us great advice about the work to be done and kept us updated throughout. He and his team renovated our bathroom for us in summer 2021 and we've since used Minibuild for our kitchen renovation and garage conversion. We've recommended Andy to several friends and wouldn't hesitate to recommend him to anyone!

21-Jun-2019	We commissioned Andy to complete a garage conversion, create an en-suite bathroom and to change the layout of our downstairs living area. We are extremely pleased with the finished result, which is of a high quality. Andy was spot on at calculating the time it would take and the cost involved. He was very friendly, trustworthy and conscientious, as were the other trades-people he brought in to help on the job, which he project managed. We would highly recommend Minibuild and would definitely approach Andy to undertake for any future building work for us.
